

## The Best Creation Science Textbook!

Front Cover

Back Cover

If I was still teaching school, this is what I would use!  
It only costs \$6.50 + postage (unless it's on sale!)  
& you can get it from [www.drdino.com](http://www.drdino.com),  
and... you can make copies of it!

It's excellent for any student, whether they are public, private, or homeschooled.

# INDEX

References are to post numbers (#s).

- anthropic principle, 40
- astrophysics, 26, 40
- big bang theory, 14, 17, 20, 22, 24, 42, 48
- canyons, 16, 63–65
- carbon dating, 53
- centrifugal force, 22
- chemical evolution, 14
- circular reasoning, 52
- Colorado River, 64
- continents, 67
- cosmic evolution, 14, 20, 22, 24
- creation, 10, 14, 22, 24, 48, 50, 67–69
- Darwinism, 8
- dating methods, 52–53, 57–59
  - carbon, 53
  - potassium-argon, 57–59
  - radiometric, 53, 58
- Doppler effect, 24
- earth, 16, 49–50, 67
- earthquakes, 67
- energy, 22, 24
- evolution, 1–2, 6, 8, 14–15, 20, 22, 24, 32–34, 48, 67–69
  - chemical, 14
  - cosmic, 14, 20, 22, 24
  - definitions, 14
  - macro-, 14
  - micro-, 14
  - organic, 14
  - stellar, 14, 16, 24–27
- Flood (Noah's), 52–53, 58, 60, 64–65, 67
- fossil record, 60
- fossils, 52–53, 57, 60
  - dating of, 52–53, 57, 60
  - formation of, 60
  - preservation of, 60
  - stress shown in, 60
- galaxies, 14, 40
- geologic column, 16, 50–54
- Grand Canyon, 64–65
- Grand Lake, 64
- gravity, 22
- Hubble Space Telescope, 40
- hydrogen, 14
- hydrosphere, 49–50
- index fossils, 52–53, 60
- inertia, 22
- Jurassic period, 53
- Kiabab Plateau, 64
- lava, 57–59
- layers, 52–54
- lithosphere, 50
- logic, 48, 52, 67
- macroevolution, 14
- matter, 20, 22, 24
- microevolution, 14
- minerals, 16
- molecular cloud, 26
- moons, 24, 40
- mountains, 16, 63–64
- Mount St. Helens, 59, 65
- multi-strata trees, 52–53
- nova, 26–27
- oceans, 50, 67
- organic evolution, 14
- Pangaea, 66–67
- planets, 37, 39–40, 48
- plants, 14, 60
- plates, 67
- potassium-argon dating, 57–59
- radiometric dating, 53
- redshift, 24
- rock, 16, 52, 57, 60
- space, 14, 16, 24, 26, 40
  - origin of, 14, 16, 24
  - spin problems in, 24, 40
- starlight, 24, 43–44, 46
- stars, 14, 16, 24–27, 37, 40, 43
- stellar evolution, 14, 16, 24–27
- stratification, 52–54
- subduction zones, 67
- supernova, 26
- Toutle River, 65
- trees (multi-strata), 52–53
- trigonometry, 46–47
- underwater land bridges, 67
- volcanoes, 57–59, 65, 67
- water, 53–54, 64–65, 67
